

Stretch leveller

With Liko's Stretch Leveller, individual adjustment of the centre of gravity for each patient is easy. The centre of gravity is shifted in the desired direction by simply turning the knobs. We recommend that the Stretch Leveller be used in combination with Liko's overhead lift systems or Golvo mobile lifts. For more information on lifting accessories that can be used together with the Stretch Leveller, contact Liko.

Prod. No. 3156200

Maximum load: 200 kg, 440 lbs
